SNIS/Joint Cerebrovascular Section Fellows Course

Coming to you VIRTUALLY this year!

August 8, 2020
Greetings!

Welcome to the 2020 Society of NeuroInterventional Surgery/Joint Cerebrovascular Section Virtual Fellows Course!
We are excited to invest this full day of intensive instruction in your skills, your practice and your career. We’ve gathered the finest leaders in the field of neurointervention to help you find your place in this ever-evolving, constantly innovating field.

It has been nearly 30 years since neurointerventional pioneers began providing life-saving therapies for patients with serious neurovascular conditions. From the beginning, these innovators understood the concept of “paying it forward” to ensure that their experiences and practices are combined with new thoughts, ideas and energy to provide the best possible outcomes for patients. That sentiment is at the heart of this Fellows Course.

Though our sessions will take place virtually, you will experience a unique, 360-degree view of the field, with sessions on aneurysm, ischemic stroke and practice management from the world’s most accomplished practitioners.

We hope that this Fellows Course provides you with the resources and skills you need to chart your personal journey, your practice path and ultimately success in our field. Thank you for allowing us to be part of shaping your future in neurointervention.

Sincerely,

Justin Fraser, MD
Chair, 2020 Fellows Course

Jeremy Heit, MD, PhD
Chair, 2020 Fellows Course
Final Program

ALL BROADCAST TIMES ARE LISTED IN EASTERN DAYLIGHT TIME (UTC-4)

Saturday, August 8, 2020

11:00 am – 11:10 am    Welcoming Remarks, Justin Fraser, MD & Jeremy Heit, MD, PhD

DIDACTIC SESSION  –  Cerebral Aneurysm Pearls
Moderated by Justin Fraser, MD & Jeremy Heit, MD, PhD
11:10 am – 11:30 am    Unruptured Aneurysms: When to Treat/When to Watch, Stavropoula Tjoumakaris, MD
11:30 am – 11:40 am    Discussion
11:40 am – 12:00 noon  New Technologies in Aneurysm Treatment and How to Incorporate Them into Active Practice, Reade DeLeacy, MD
12:00 noon – 12:10 pm  Discussion
12:10 pm – 12:50 pm    Complications and Challenging Cases in Aneurysm Treatments, Gary Duckwiler, MD, FSNIS
12:50 pm – 1:00 pm     Discussion
1:00 pm – 1:30 pm      Lunch Break with Open Forum for Discussion

DIDACTIC SESSION  –  Ischemic Stroke Management Pearls
Moderated by Justin Fraser, MD & Jeremy Heit, MD, PhD
1:30 pm – 1:50 pm      New Imaging Selection Techniques, Teddy Youn, MD
1:50 pm – 2:00 pm      Discussion
2:00 pm – 2:20 pm      The Future of Ischemic Stroke: Thrombectomy Selection, New Devices, Sunil Sheth, MD
2:20 pm – 2:30 pm      Discussion
2:30 pm – 2:50 pm      Complications and Challenging Cases in Stroke Treatments, Waleed Brinjikji, MD
2:50 pm – 3:00 pm      Discussion
3:00 pm – 3:15 pm      Hospitality Break

DIDACTIC SESSION  –  Neurointerventional Jobs and Practice Building
Moderated by Justin Fraser, MD & Jeremy Heit, MD, PhD
3:15 pm – 3:45 pm      Your First Job!, Dorothea Altschul, MD
3:45 pm – 4:15 pm      Building a Successful Neurointerventional Practice Once you Arrive, Christoph Griessenauer, MD
4:15 pm – 4:45 pm      Neurointerventional Practice Building: Targeting Growth Areas beyond Stroke & Brain Aneurysms, Nick Telischak, MD
4:45 pm – 5:00 pm      Open Discussion and General Q&A Period
